His Cousin the Golden Retriever Visits

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

My sister brought her Golden Retriever over: the front yard sniff hello, backyard chase, side by side water break, a stolen ball and two exhausted cousins on the living room floor.

TIMELINE

0-5s	Sniff hello
5-10s	Backyard chase
10-15s	Water break
15-20s	Stolen ball
20-25s	Two tired cousins

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Sniff hello): Front yard, cloudy late morning, short lawn and a concrete path. A Golden Retriever on a blue leash hops out of a car with the owner's sister. The dog walks up and both dogs sniff each other's faces, then circle once with tails high and wagging. Sound: car door, tags jingling, sister saying "say hi to your cousin". 5-10s (Backyard chase): Fenced backyard, cloudy midday light, worn grass with a bare path along the wooden fence. The Golden Retriever runs in a wide loop and the dog chases a step behind, both running along the fence line with ears flapping, then switching directions. Sound: paws thudding on grass, playful huffs, owner laughing. 10-15s (Water break): Back patio, cloudy midday, grey concrete slabs and a big steel water bowl. Both dogs stand side by side and drink from the same bowl at once, lapping noisily, water splashing onto the concrete and dripping from their chins. The Golden Retriever lifts its head first and drips on the dog's shoulder. Sound: loud double lapping, splashing, heavy panting. 15-20s (Stolen ball): Backyard, early afternoon, overcast light, patchy grass. The Golden Retriever trots past proudly carrying the dog's green tennis ball. The dog follows close behind, nose near the ball, tail wagging, as the golden keeps it just out of reach. The two dogs make a lap around a plastic garden chair. Sound: owner saying "he took your ball, buddy", sister laughing. 20-25s (Two tired cousins): Living room, late afternoon daylight through sheer curtains, grey carpet. Both dogs lie asleep side by side on the carpet, the Golden Retriever's paw resting against the dog's leg, ribs rising and falling, a tennis ball between them. Late light makes soft stripes across both coats. Sound: quiet room, two dogs breathing slowly, a soft snore.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sniff hello

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
