Meeting a Rabbit

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Our dog meets our new rabbit very slowly: sniffing through the pen, a calm look while the rabbit sits on my lap, watching her hop, lying close at lettuce time and a treat for being so good.

TIMELINE

0-5s	Sniffing the pen
5-10s	Rabbit on my lap
10-15s	Watching her hop
15-20s	Lettuce time
20-25s	Treat for calm

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Sniffing the pen): Living room, morning daylight from a side window, beige carpet. A small brown rabbit sits inside a wide wire play pen. The dog lies on the carpet outside the pen, nose close to the wire, sniffing slowly while the rabbit sniffs back from the other side. Sound: soft sniffing, owner whispering "easy, easy". 5-10s (Rabbit on my lap): Same living room, morning light, owner sitting on the floor with the brown rabbit held calmly on a towel in their lap. The dog sits beside them, owner's hand on its collar. It stretches its neck and gently sniffs the rabbit's back, then sits back and licks its lips. Sound: quiet room, a gentle sniff, owner saying "good, gentle boy". 10-15s (Watching her hop): Living room, late morning daylight, beige carpet. The rabbit hops a few short hops across the carpet. The dog lies flat with its head on its front paws, ears forward, eyes following her, not getting up at all, only its eyebrows moving. Sound: soft thumps of small hops, clock ticking. 15-20s (Lettuce time): Same living room, midday light, the rabbit nibbling a green lettuce leaf on the carpet. The dog lies a short distance away with its chin on the floor, watching the leaf get smaller, calm and still, its tail giving a slow wag. Sound: tiny crunching of lettuce, a soft doggy sigh. 20-25s (Treat for calm): Living room, early afternoon daylight. The rabbit is back in the wire pen. The owner's hand holds out a small plain dog treat and the dog takes it gently, then lies back down next to the pen and rests its head near the wire. Sound: treat crunching, owner says "so proud of you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sniffing the pen

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. Living room, early afternoon daylight. The rabbit is back in the wire pen. The owner's hand holds out a small plain dog treat and the dog takes it gently, then lies back down next to the pen and rests its head near the wire. Sound: treat crunching, owner says "so proud of you".

FACEBOOK CAPTION

He was more scared of her than she was of him.
Would your dog be this calm with a bunny?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
