Meeting Our Pet Parrot

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Our dog and our grey parrot getting to know each other: the first look up, the whistle head tilt, the parrot saying good boy, a careful sniff and a nap under the cage.

TIMELINE

0-5s	First look up
5-10s	Whistle head tilt
10-15s	Parrot says good boy
15-20s	Careful sniff
20-25s	Nap under the cage

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (First look up): Living room, mid-morning daylight from a window with white blinds, wood floor. A grey parrot with a red tail stands on a wooden perch on top of a tall metal cage. The dog sits on the floor below, staring up at the bird with its ears pointed forward. Sound: parrot clicking its beak, tags jingling. 5-10s (Whistle head tilt): Same living room, morning light. The parrot lets out a loud two-note whistle. The dog tilts its head sharply to one side, then to the other side, ears twitching, still sitting on the wood floor below the cage. Its tail stays still and its mouth closes in concentration. Sound: parrot whistling, owner laughing off camera. 10-15s (Parrot says good boy): Living room, late morning daylight. The parrot bobs its head on its perch and says "good boy" in a squeaky voice. The dog's tail starts wagging on the floor and it stands up, looking around the room and then back up at the bird. Sound: parrot saying "good boy", tail thumping, owner saying "he thinks it's me". 15-20s (Careful sniff): Same living room, midday light. The owner's forearm is held low with the grey parrot perched on it, the owner's other hand resting on the dog's collar. The dog stretches forward, sniffs the air near the parrot's tail feathers, then sits back calmly. Sound: soft sniff, parrot clicking, owner whispering "nice and easy". 20-25s (Nap under the cage): Living room, afternoon daylight through the blinds making stripes on the wood floor. The dog lies stretched out asleep beside the base of the cage while the parrot preens its feathers on the top perch above it. A few loose grey feathers lie on the floor near its paws. Sound: parrot chattering quietly, soft snoring, a car passing outside.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First look up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. The dog lies stretched out asleep beside the base of the cage while the parrot preens its feathers on the top perch above it. A few loose grey feathers lie on the floor near its paws. Sound: parrot chattering quietly, soft snoring, a car passing outside.

FACEBOOK CAPTION

The parrot learned to say "good boy" and now the dog is confused all day.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
