He Knows When I Am Sad

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A hard evening and my dog just knew: he sat close on the kitchen floor, rested his head on my knee, licked my hand, lay across my lap and got me outside the next morning.

TIMELINE

0-5s	Sitting close
5-10s	Head on knee
10-15s	Licks my hand
15-20s	Across my lap
20-25s	Morning walk nudge

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Sitting close): Kitchen at night, the light over the stove on, grey tile floor and white cabinets. The owner sits on the floor with their back against a cabinet, knees up. The dog walks in slowly, sits right beside the owner and leans its shoulder against the owner's arm. Sound: quiet kitchen, fridge humming, claws on tile, a soft sniffle. 5-10s (Head on knee): Same kitchen at night, stove light on, tile floor. The dog lowers its head and rests its chin on the owner's knee, looking up quietly with its ears relaxed back. The owner's hand comes down and slowly strokes the top of its head. Sound: fridge humming, a slow breath, owner saying quietly "I know, buddy". 10-15s (Licks my hand): Kitchen at night, stove light, same spot on the floor. The owner's hand wipes at their face and then drops to their lap. The dog leans in and gently licks the hand a few times, then pushes its nose under it until the hand rests on its head. Sound: soft licking, a small laugh through tears. 15-20s (Across my lap): Living room at night, one table lamp on, owner sitting on the couch under a grey throw blanket. The dog climbs up and lies down across the owner's lap, its heavy head and shoulders pinning the blanket, and lets out a long sigh while the owner's arms wrap around it. Sound: couch creaking, a long sigh, quiet room. 20-25s (Morning walk nudge): Front hallway the next morning, bright sunlight through the open door, shoes by the wall. The dog stands holding a red leash in its mouth, tail wagging, and nudges the owner's hand with it until the owner takes it. Out on the porch, the morning air looks cool and clear. Sound: birds outside, tags jingling, owner saying "okay, let's go".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sitting close

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
