Welcoming Guests at the Door

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Practicing door manners when friends visit: the doorbell alert, going to his mat, staying while the door opens, a polite hello on release and earning belly rubs on the couch.

TIMELINE

0-5s	Doorbell alert
5-10s	Goes to his mat
10-15s	Staying put
15-20s	Polite hello
20-25s	Belly rubs

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Doorbell alert): Front hallway, early evening, ordinary ceiling light on, wood floor and a coat rack. The doorbell rings and the dog trots to the front door, barks twice and stands with its nose near the door, tail up. The owner's hand points and the owner says "place". Sound: doorbell, two loud barks, owner says "place". 5-10s (Goes to his mat): Same hallway, warm ceiling light, a brown rubber-backed mat against the wall a few steps from the door. The dog walks over, steps onto the mat and sits, staring at the door, tail thumping against the floor, front paws shifting with excitement. Sound: tail thumping, owner saying "good, stay", a soft whine. 10-15s (Staying put): Front hallway, evening, cool blue light outside through the open door. A friendly couple steps in holding a small gift bag and takes off their jackets. The dog stays sitting on the mat, whining softly, wiggling but not getting up. Their shoes are wet from the rain on the porch. Sound: guests saying "hi", jackets rustling, soft whining. 15-20s (Polite hello): Same hallway, warm ceiling light. The owner says the release word and the dog walks over to the guests, sniffs the woman's hand and leans against her legs while she crouches and scratches behind its ears. The man pats its back and the dog's tail swings in wide arcs against the coat rack. Sound: owner says "okay, say hi", guest laughing "he's so good". 20-25s (Belly rubs): Living room, evening, two table lamps on, beige carpet and a grey sofa. The guests sit on the sofa. The dog lies at the man's feet, then rolls onto its back with its legs loose in the air while his hand rubs its belly. Sound: happy grunting, guests laughing, owner saying "now he'll never leave you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Doorbell alert

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Front hallway, early evening, ordinary ceiling light on, wood floor and a coat rack. The doorbell rings and the dog trots to the front door, barks twice and stands with its nose near the door, tail up. The owner's hand points and the owner says "place". Sound: doorbell, two loud barks, owner says "place".

Clip 2 | 5-10s | Goes to his mat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
