The Neighbor Kids Come to Play

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

The neighbor kids came over after school: the gate greeting, sniff hellos on the lawn, nose-soccer, a gentle run together and resting in the shade under the tree.

TIMELINE

0-5s	Gate greeting
5-10s	Sniff hellos
10-15s	Nose soccer
15-20s	Running together
20-25s	Shade rest

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Gate greeting): Front yard, sunny afternoon, white picket gate and a green lawn. Two neighbor kids with backpacks stand at the gate waving. The dog runs over across the lawn, tail wagging hard, and pokes its nose between the pickets to sniff their hands. Sound: kids calling the dog's name, gate latch rattling, birds. 5-10s (Sniff hellos): Front lawn, sunny afternoon, short grass and a big maple tree. The two kids sit cross-legged on the grass. The dog walks from one to the other, sniffing their backpacks and shoes, and gives one kid a quick lick on the cheek. Sound: kids giggling, panting, owner saying "easy, buddy". 10-15s (Nose soccer): Same front lawn, afternoon sun. One kid rolls a small blue soccer ball across the grass. The dog runs to it and pushes it along with its nose, bumping it back toward the kids while they cheer and clap. The dog's tail wags the whole time it pushes the ball. Sound: ball bouncing on grass, kids cheering "goal". 15-20s (Running together): Front lawn, late afternoon, warm light and long shadows from the maple tree. The two kids run across the grass toward the porch and the dog lopes beside them at an easy pace, ears bouncing, staying at their side without jumping. Sound: kids laughing, footsteps on grass, tags jingling. 20-25s (Shade rest): Under the big maple tree, late afternoon, dappled shade on the grass. The dog lies on its side panting in the shade while the two kids sit next to it, petting its side and its ears gently. A small blue soccer ball rests in the grass beside them. Sound: panting, leaves rustling, kid saying "can we come back tomorrow?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Gate greeting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
