Visiting a Dog-Friendly Cafe

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A slow Saturday morning at a dog-friendly cafe: sniffing the sidewalk plants, lying under the table, a water bowl from the server, a biscuit treat and a hello from a stranger.

TIMELINE

0-5s	Sidewalk sniffing
5-10s	Under the table
10-15s	Water bowl
15-20s	Biscuit treat
20-25s	Stranger hello

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Sidewalk sniffing): City sidewalk outside a small cafe, Saturday morning, cool overcast daylight, grey concrete and large terracotta planters with green shrubs. The dog walks on a loose black leash and stops to sniff the base of a planter thoroughly, tail swaying. Sound: street traffic, footsteps, owner saying "come on, nosy". 5-10s (Under the table): Cafe outdoor patio, overcast morning, small black metal tables on a concrete patio. The owner's legs in jeans and sneakers are under the table, a coffee cup visible on top. The dog lies flat under the table on the cool concrete, head up, watching people walk by. Sound: cups clinking, quiet conversations, an espresso machine hissing inside. 10-15s (Water bowl): Same cafe patio, overcast morning. A server in a dark apron crouches and sets a small steel water bowl on the concrete. The dog stands up, drinks noisily, water dripping off its chin, then looks up at the server. Its ears flop back as it laps from the bowl. Sound: lapping water, server saying "here you go, handsome". 15-20s (Biscuit treat): Cafe patio, overcast morning daylight, metal table above. The owner's hand reaches down holding a plain dog biscuit from the cafe's treat jar. The dog sits up, takes it gently and crunches it, crumbs falling onto the concrete. A pigeon pecks near the next table and the dog watches it while chewing. Sound: crunching, owner says "don't make a mess", cafe chatter. 20-25s (Stranger hello): Sidewalk beside the cafe patio, late morning, overcast light. A woman walking past stops and asks to say hi. The dog sniffs her offered hand and wags while she scratches under its chin, then it leans against the owner's leg. Sound: woman asking "can I pet him?", owner saying "sure, he loves people".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
