Day at the Pet Groomer

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Our dog's spa day at the groomer: putting on the brakes at the door, the bath, the dryer with fur flying, a big brush-out and the fluffy pickup.

TIMELINE

0-5s	Brakes at the door
5-10s	Bath time
10-15s	Dryer fur storm
15-20s	Brush-out
20-25s	Fluffy pickup

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Brakes at the door): Small parking lot outside a pet grooming shop, morning, cloudy daylight, cracked asphalt. The dog walks on a leash toward the shop door, then slows down, plants its front paws and looks back at the owner with its ears flat. Sound: car passing, owner laughing "you know where we are, huh". 5-10s (Bath time): Inside the grooming room, bright white ceiling lights, a raised steel tub against a tiled wall. The dog stands in the tub, wet fur sticking flat, while the groomer's gloved hands rinse its back with a spray nozzle. The dog looks over at the camera. Sound: water spraying, dripping, groomer saying "almost done". 10-15s (Dryer fur storm): Grooming room, bright white lights, a grooming table with a grey rubber top. The groomer aims a hose dryer at the dog's side and the fur ripples and blows backward, loose tufts flying in the air. The dog squints and stands still. Sound: loud dryer roaring, owner laughing off camera. 15-20s (Brush-out): Same grooming table, bright indoor lights. The groomer pulls a wide metal rake through the dog's undercoat and a big pile of soft tan and grey fur builds up on the table. The dog stands patiently, turning its head to sniff the pile. Sound: brush scraping, groomer saying "look at all this". 20-25s (Fluffy pickup): Grooming shop front area, morning daylight through the front window, grey tile floor. The dog trots out on its leash toward the owner, coat fluffy and clean, tail wagging hard, and pushes its head into the owner's hands. Behind them the groomer's arm waves goodbye near the counter. Sound: claws on tile, happy whining, owner saying "look how soft you are".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Brakes at the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. Grooming shop front area, morning daylight through the front window, grey tile floor. The dog trots out on its leash toward the owner, coat fluffy and clean, tail wagging hard, and pushes its head into the owner's hands. Behind them the groomer's arm waves goodbye near the counter. Sound: claws on tile, happy whining, owner saying "look how soft you are".

FACEBOOK CAPTION

He went in a German Shepherd and came out a cloud.
How long until he rolls in the dirt? I give it an hour.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
