Family Photo Day

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Trying to take a fall family photo with the dog: he won't stop sniffing, a treat gets his attention, a huge yawn ruins one shot, a face lick ruins another and finally one good one.

TIMELINE

0-5s	Won't sit still
5-10s	Treat for attention
10-15s	Yawn ruins it
15-20s	Face lick
20-25s	One good shot

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Won't sit still): Park in autumn, afternoon, soft overcast daylight, orange and yellow leaves on the grass, a plaid blanket spread out. The family sits on the blanket in matching sweaters while the dog wanders off the edge, nose down, sniffing the leaves. Sound: leaves crunching, mom calling the dog's name, kids laughing. 5-10s (Treat for attention): Same park, overcast autumn afternoon. Dad stands behind the camera holding a dog treat up high next to the phone. The dog sits on the blanket between two kids, ears straight up, staring hard at the treat without moving. The kids lean in close on both sides of the dog, trying not to laugh. Sound: dad saying "look here, look here", kids giggling. 10-15s (Yawn ruins it): Park, soft autumn daylight, leaves around the blanket. Just as everyone smiles, the dog opens its mouth in a huge, long yawn with its tongue curling, and the whole family bursts out laughing. Mom covers her mouth with her hand while dad shakes his head behind the phone, and the dog snaps its jaws shut and looks around. Sound: a squeaky yawn, the whole family laughing. 15-20s (Face lick): Same park blanket, overcast afternoon light. The family tries again. The dog turns and licks the youngest kid's face right in the middle of the shot, the kid squeezing their eyes shut and laughing. The dog wags its tail happily against the plaid blanket while mom pulls the kid back into place. Sound: kid shrieking with laughter, mom saying "every time". 20-25s (One good shot): Park, late afternoon, soft overcast light and fallen leaves. The dog lies in front of the family on the blanket, head up and calm, mouth open in a relaxed pant. Everyone holds still and smiles for a moment. Orange leaves blow slowly across the edge of the blanket. Sound: dad counting "three, two, one", a phone shutter click, cheering.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
