Gotcha Day Celebration

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Five years since we adopted him: a dog-safe gotcha day cake, the cake disappearing, sniffing his tiny old puppy collar, a walk on his favorite trail and unwrapping a new toy.

TIMELINE

0-5s	Gotcha day cake
5-10s	Cake disappears
10-15s	Old puppy collar
15-20s	Favorite trail walk
20-25s	New toy unwrap

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Gotcha day cake): Kitchen, morning daylight through the window over the sink, light wood floor. The owner's hands set down a small dog-safe cake on a plate, made of mashed sweet potato with a plain yogurt topping. The dog sits in front of it, drooling, eyes locked on the plate. Sound: plate set down, family singing a quiet happy song. 5-10s (Cake disappears): Same kitchen, morning light. The owner says okay and the dog dives into the cake, eating fast, then licks the plate in circles, pushing it across the wood floor with its nose, orange sweet potato on its whiskers. Small crumbs scatter around the edge of the plate. Sound: happy licking, plate scraping on the floor, family laughing. 10-15s (Old puppy collar): Living room, late morning daylight, beige couch. The owner's hand holds out a tiny faded blue puppy collar. The dog sniffs it carefully and then looks up at the owner while the owner holds it next to its big neck for comparison. Sound: owner saying "you used to fit in this", soft sniffing. 15-20s (Favorite trail walk): Wooded walking trail, midday, sunlight through tall trees, a packed dirt path with roots and fallen leaves. The dog trots ahead on a long leash, tail up, stopping to sniff a stump, then looking back to check on the owner. Sound: birds, footsteps on dirt, owner saying "this is your day". 20-25s (New toy unwrap): Living room, late afternoon daylight, grey carpet. A gift wrapped in plain brown paper lies on the floor. The dog pins it with a paw, tears the paper with its teeth and pulls out a rope toy, then shakes it hard side to side. Sound: paper tearing, the family cheering, toy flapping.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Gotcha day cake

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
