Mother's Day Breakfast in Bed

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

The kids made mom breakfast in bed with a lot of help from the dog: kitchen supervising, escorting the tray, the bedside stare, joining mom on the bed and his own Mother's Day treat.

TIMELINE

0-5s	Kitchen supervisor
5-10s	Tray escort
10-15s	Bedside stare
15-20s	Joins on the bed
20-25s	His own treat

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Kitchen supervisor): Kitchen, early morning, soft daylight through the window, white cabinets and tile floor. Two kids in pajamas spread butter on toast with dad standing behind them. The dog sits right next to the counter, nose lifted and sniffing, eyes on the toast. Sound: toaster popping, kids whispering "shh, mom's asleep". 5-10s (Tray escort): Upstairs hallway, early morning light from a window, beige carpet. The older kid walks slowly carrying a wooden tray with toast, orange juice and a flower in a cup, dad's hand steadying it. The dog walks close behind, sniffing the air. Sound: careful footsteps, juice sloshing, dad whispering "slowly". 10-15s (Bedside stare): Parents' bedroom, morning daylight through cream curtains. Mom sits up in bed smiling with the tray on her lap. The dog rests its chin on the edge of the mattress next to her, staring at the toast with big eyes, tail wagging slowly. Sound: kids shouting "happy Mother's Day", mom laughing "you too, huh". 15-20s (Joins on the bed): Same bedroom, morning light. Dad lifts the tray away and the dog hops onto the bed and lies down along mom's legs on the white comforter, putting its head on her lap while she hugs its neck. Crumbs of toast scatter on the comforter beside its nose. Sound: bed creaking, mom laughing, kids climbing onto the bed. 20-25s (His own treat): Parents' bedroom, morning daylight, everyone on the bed. The youngest kid hands mom a plain dog biscuit and mom holds it out. The dog takes it gently and crunches it while the kids hug the dog from both sides. The dog's tail thumps on the comforter as it chews. Sound: crunching, kid saying "that's from him to you, mom".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Kitchen supervisor

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
