New Year's Eve Fireworks Night

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Keeping our dog calm on New Year's Eve: a cozy evening, setting up his quiet room, fireworks heard from inside, a lick mat to keep busy and a calm midnight with his head on my lap.

TIMELINE

0-5s	Cozy evening
5-10s	Quiet room setup
10-15s	Fireworks outside
15-20s	Lick mat
20-25s	Calm midnight

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Cozy evening): Living room at night, two ordinary lamps on, curtains closed, beige carpet. The family sits on the couch with party hats on and a bowl of plain chips on the coffee table. The dog lies relaxed on the rug in front of them, chin on its paws. Sound: family chatting, TV murmuring, a party horn toot. 5-10s (Quiet room setup): Small back bedroom at night, one dim lamp on, blinds and curtains closed. The owner's hands fluff a thick grey dog bed in the corner and switch on a small white noise fan. The dog walks in, sniffs the bed and steps onto it. Sound: fan humming, owner saying "this is your safe spot". 10-15s (Fireworks outside): Same back bedroom at night, dim lamp, curtains closed. Muffled booms come from outside. The dog lifts its head, ears up and turning toward the window, alert but lying still, while the owner's hand strokes slowly down its back. The dim lamp makes a small warm pool of light on the floor. Sound: muffled distant booms, fan humming, owner saying "you're okay, you're safe". 15-20s (Lick mat): Back bedroom at night, dim lamp light. The owner's hand sets down a rubber lick mat spread with plain xylitol-free peanut butter. The dog licks it steadily, eyes half closed, ignoring the faint booms outside. The owner sits close beside the dog bed with crossed legs, and the grey bed sinks under the dog's weight. Sound: steady licking, faint distant booms, fan humming. 20-25s (Calm midnight): Back bedroom at midnight, one dim lamp, curtains closed. The owner sits on the floor beside the dog bed. The dog rests its head on the owner's lap, ears relaxed, breathing slowly as cheering comes faintly from the living room. Sound: faint family countdown and cheers, muffled booms, owner whispering "happy new year, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
