Big Dog, Tiny Toy

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A big German Shepherd falls in love with a tiny plush toy: taking it gently, carrying it around, guarding it between his paws, losing it in the grass and sleeping with it.

TIMELINE

0-5s	Gentle take
5-10s	Proud carry
10-15s	Between the paws
15-20s	Lost in the grass
20-25s	Bedtime buddy

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Gentle take): Living room, late morning, natural light from the window, tan carpet. The owner's hand holds out a very small pink plush hedgehog toy, about the size of a palm. The dog sniffs it carefully and takes it with just his front teeth, very gently, tail wagging. Sound: tiny squeak, owner saying "gentle", tail swishing on the carpet. 5-10s (Proud carry): Small kitchen, morning daylight, beige tile floor. The dog walks around the kitchen holding the tiny pink toy, which almost disappears in his mouth. It squeaks with every step as he trots a lap around the table and comes back past the camera. Sound: squeak with each step, claws clicking on tile, owner giggling. 10-15s (Between the paws): Living room, afternoon window light, faded rug. The dog lies down with the tiny plush toy held between his huge front paws, licking it softly. When the owner's hand reaches toward it, he pulls the toy closer with one paw and keeps licking. Sound: soft licking, a quiet grumble, owner saying "I won't take it". 15-20s (Lost in the grass): Backyard, cloudy afternoon, longish uneven grass and a wooden fence. The dog trots across the lawn with the tiny toy, drops it, and it vanishes in the grass. He spins around, nose down, sniffing in circles until he finds it and picks it up again. Sound: busy sniffing, birds chirping, owner saying "where'd it go?". 20-25s (Bedtime buddy): Corner of a bedroom at night, a small bedside lamp on, the dog's round grey bed on the floor. The dog is curled up asleep with the tiny pink toy tucked right under his chin. He opens one eye at the camera, then closes it again. Sound: quiet room, slow breathing, owner whispering "goodnight, big guy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Gentle take

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
