Thanksgiving Day

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Thanksgiving with the dog: supervising the cooking, his own plain pumpkin, staying calm during dinner with no table scraps, plain green beans and a food coma on the rug.

TIMELINE

0-5s	Kitchen supervisor
5-10s	His own pumpkin
10-15s	Calm at dinner
15-20s	Green bean treat
20-25s	Food coma

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Kitchen supervisor): Busy kitchen, late morning, ordinary overhead light and a window, covered dishes pushed far back on the counter. The dog lies on a kitchen mat out of the way, head up, nose twitching, eyes following the owner's legs moving between the oven and the counter. Sound: oven door closing, pots clinking, owner saying "you're a good helper". 5-10s (His own pumpkin): Kitchen corner, late morning light, the dog's steel bowl on the tile floor. The owner's hand drops two spoonfuls of plain cooked pumpkin with nothing added into his bowl. The dog licks it all up and then licks the empty bowl across the floor. Sound: spoon tapping the bowl, eager licking, bowl scraping on tile. 10-15s (Calm at dinner): Dining room, afternoon, warm overhead light, family seen only from the waist down around a table. The dog lies on his own bed in the corner chewing his own chew toy. No one feeds him anything from the table and he stays calmly on his bed. Sound: family chatter, forks on plates, the dog's soft chewing. 15-20s (Green bean treat): Kitchen, early evening, overhead light on. After dinner the owner's hand offers a few plain steamed green beans with no butter or salt. The dog takes them gently one at a time and crunches them, tail wagging. The kitchen counter behind is crowded with dishes and covered bowls. Sound: crunching, owner saying "veggies for you", dishes clinking. 20-25s (Food coma): Living room in the evening, warm table lamps on, relatives' feet in socks near the couch. The dog is stretched out asleep on the rug in the middle of everyone, belly up slightly, letting out a big sleepy groan. His paws twitch a little as he drifts off to sleep. Sound: quiet family talk, a TV murmur facing away, a big contented groan.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

FACEBOOK CAPTION

He got plain pumpkin and green beans, and acted like it was a feast.
Thankful for this boy every day.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
