Packing Lunchboxes With Her Watching

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Making school lunches while the dog keeps watch from the floor: bread on the counter, apple slices, carrot sticks, snapping the lids shut and a dog biscuit for the patient helper.

TIMELINE

0-5s	Bread on the counter
5-10s	Apple slices
10-15s	Carrot sticks
15-20s	Snapping lids
20-25s	Her own snack

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Bread on the counter): Kitchen counter, early morning window light, a wooden cutting board, a loaf of bread and two plastic lunchboxes. The mom, a woman in her mid 30s with shoulder-length brown hair, spreads butter on a slice of bread. Below the counter the dog sits perfectly still, nose pointed up, watching every move. Sound: knife scraping toast, kitchen clock ticking, a soft whine. 5-10s (Apple slices): Same kitchen, morning light. The dad, a man in his late 30s with a short dark beard, cuts a red apple into slices on the cutting board and removes the core. He crouches and offers one seedless apple slice on his flat palm, and the dog takes it gently and crunches it. Sound: crisp crunching, dad saying "no seeds for you". 10-15s (Carrot sticks): Kitchen, morning window light, the daughter, a 7-year-old girl with two braids, stands on a small step stool putting carrot sticks into a pink lunchbox. She holds one carrot stick down by her side and the dog takes it carefully, then lies down on the tile floor to chew it. Sound: loud carrot crunching, the girl giggling "gentle". 15-20s (Snapping lids): Kitchen counter, morning light, a row of packed lunchboxes. The son, an 11-year-old boy with short curly hair, presses each lid shut with a click. The dog stands beside him with her front paws still on the floor, ears forward, tilting her head at every snap. Sound: three plastic clicks, the boy laughing "she thinks one is hers". 20-25s (Her own snack): Kitchen by the fridge, morning daylight, school bags lined up by the back door. The mom holds up a plain bone-shaped dog biscuit and the dog sits on the beige tiles without being asked. The mom gives it to her, and the dog trots off with it toward her bed in the corner. Sound: biscuit crunch, claws tapping, mom saying "you packed nothing, but okay".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
