# Walking Everyone to the Car in the Morning

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

The dog's daily morning escort job: out the front door, down the driveway, goodbye pats at the car, a rub from dad and watching the car leave before heading back inside with mom.

## TIMELINE

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Out the front door): Front door of a suburban house, overcast morning daylight, wet leaves on the steps. The daughter, a 7-year-old girl with two braids and a small backpack, steps outside and the dog walks out right beside her on a loose leash held by the mom's hand at the edge of the frame. Sound: door creaking, birds, tags jingling, the girl saying "come on". 5-10s (Driveway trot): Concrete driveway with a few damp leaves, cloudy morning light, a silver family car parked ahead. The son, an 11-year-old boy with short curly hair, walks toward the car with his backpack on one shoulder while the dog trots alongside him on the leash, sniffing his swinging hand. Sound: footsteps on concrete, a neighbor's garage door, leash clinking. 10-15s (Goodbye pat): Beside the open back door of the silver car, grey morning daylight. The daughter sits buckled in her booster seat and leans toward the open door. The dog stands on the driveway, stretches her neck in and the girl pats the top of her head with both hands. Sound: car idling, the girl saying "bye bye, be good". 15-20s (Dad's quick rub): Driver's side of the car on the driveway, cloudy morning. The dad, a man in his late 30s with a short dark beard and a work jacket, bends down and gives the dog a quick two-handed rub on both cheeks, then straightens up and gets into the driver's seat. Sound: car door closing, dad saying "guard the house". 20-25s (Watching them go): End of the driveway, overcast morning light, a quiet residential street. Point of view of the mom holding the leash. The dog sits on the concrete watching the silver car back out and drive away, ears forward, then turns and looks up at the camera. Sound: car pulling away, a small whine, mom saying "just us now".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
