Kitchen Table Art Time

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quiet afternoon of drawing and painting at the kitchen table with the dog close by: chin on a knee, watercolors, a drawing shown to the dog, paper cutting and a new picture on the fridge.

TIMELINE

0-5s	Chin on her knee
5-10s	Watercolors
10-15s	Showing the drawing
15-20s	Cutting paper
20-25s	Fridge gallery

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Chin on her knee): Kitchen table, afternoon window light, a box of crayons and blank paper spread out. The daughter, a 7-year-old girl with two braids, colors with a red crayon. The dog sits beside her chair with her chin resting on the girl's knee, crayons well out of reach in the middle of the table. Sound: crayon scratching on paper, a soft sigh from the dog. 5-10s (Watercolors): Same kitchen table, soft afternoon daylight, a jar of water and a cheap watercolor set. The son, an 11-year-old boy with short curly hair, paints big blue and green blobs on plain white paper with no letters. Under the table the dog lies stretched out on the tile floor, eyes half closed. Sound: brush tapping in the water jar, quiet radio, dog snoring lightly. 10-15s (Showing the drawing): Kitchen, afternoon window light. The daughter holds up a simple crayon drawing of a black and grey dog shape with a purple collar, no words on the paper. She turns it toward the dog, who stands up, sniffs the paper carefully and wags her tail. Sound: paper rustling, the girl asking "do you like it? it's you". 15-20s (Cutting paper): Kitchen table, late afternoon light. The mom, a woman in her mid 30s with shoulder-length brown hair, sits with the daughter and helps her cut a paper heart with round-tip kids' scissors. The dog lies on the floor beside the mom's chair, watching paper scraps fall. Sound: scissors snipping, mom saying "slowly, follow the line". 20-25s (Fridge gallery): Kitchen by a white fridge, late afternoon window light. The daughter sticks her dog drawing on the fridge door with a round magnet, next to other wordless kids' drawings. The dog sits beside her looking up at the fridge, then licks the girl's hand. Sound: magnet clack, the girl laughing "ew, thank you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
