# After-School Snack Time

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

The kids come home from school and the dog joins snack time: sniffing backpacks, peeking into the fridge, watching crackers at the counter, getting a carrot stick and relaxing on the couch.

## TIMELINE

| | |
|---|---|
| **0-5s** | Backpack drop |
| **5-10s** | Fridge peek |
| **10-15s** | Counter snacks |
| **15-20s** | Carrot stick share |
| **20-25s** | Couch wind-down |

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Backpack drop): Front hallway, mid-afternoon daylight through the open door, shoes kicked off on a mat. The son, an 11-year-old boy with short curly hair, drops his backpack on the floor. The dog immediately sniffs every pocket of the bag, tail wagging hard. Sound: backpack thud, door closing, the boy saying "hi girl, I'm home". 5-10s (Fridge peek): Kitchen, bright afternoon window light, magnets and kids' drawings on the fridge. The daughter, a 7-year-old girl with two braids, opens the fridge door. The dog pushes her head in next to the girl's arm and sniffs the cold air, ears forward. Sound: fridge door suction, fridge hum, the girl saying "not for you". 10-15s (Counter snacks): Kitchen counter with two bar stools, afternoon daylight. Both kids sit on the stools eating crackers from a plate. The dog sits on the beige tiles between the stools, looking from one kid to the other, a small drip of drool on her lip. Sound: cracker crunching, kids chatting, a hopeful whine. 15-20s (Carrot stick share): Same kitchen, afternoon light. The son takes a carrot stick from a small bowl on the counter, hops down from the stool and holds it out low. The dog takes it gently and lies down right there on the tile floor to crunch it between her paws. Sound: loud crunching, the boy saying "her snack is healthier than mine". 20-25s (Couch wind-down): Living room, late afternoon sun through thin curtains, a grey couch with mismatched cushions. The kids slump on the couch with their socks on. The dog climbs up at the end and curls up against the daughter's legs, letting out a long breath. Sound: kids talking about school, a long dog sigh.

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
