Teeth Brushing Supervisor

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog supervises the kids' evening teeth brushing in their pajamas: waiting at the bathroom door, watching the foam, a sniff of the toothbrush cup, tidying up and walking them to bed.

TIMELINE

0-5s	Door guard
5-10s	Watching the foam
10-15s	Cup sniff
15-20s	Towel tidy
20-25s	Walk to bed

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Door guard): Small family bathroom doorway in the evening, warm ceiling light, white tiles and a plastic cup of toothbrushes on the sink. The dog lies across the doorway on the hall floor, head up, watching as the daughter, a 7-year-old girl with two braids in pink pajamas, steps up onto a small stool at the sink. Sound: stool scraping, the tap running, the girl saying "excuse me, doggy". 5-10s (Watching the foam): Family bathroom, evening ceiling light. The daughter in pink pajamas brushes her teeth at the sink with lots of white foam. The dog sits beside the stool, tilting her head from side to side, eyes following the toothbrush going back and forth. Sound: brushing sounds, water dripping, mom laughing softly off camera. 10-15s (Cup sniff): Family bathroom, evening light. The son, an 11-year-old boy with short curly hair in blue pajamas, rinses his toothbrush and puts it back in the cup on the counter edge. The dog stretches her neck up and gives the cup a careful sniff without touching it. Sound: water splashing, the boy saying "no, that's mine", a soft snort from the dog. 15-20s (Towel tidy): Family bathroom, evening ceiling light, a small hand towel hanging on a hook. The mom, a woman in her mid 30s with shoulder-length brown hair, wipes the kids' faces with the towel while the dog stands between the two kids, tail swinging, looking up. Sound: towel rubbing, kids giggling, tags jingling. 20-25s (Walk to bed): Upstairs hallway, evening lamp light, light wooden floor. Both kids in pajamas walk toward their bedrooms with the dog trotting between them. At the bedroom door she stops, sits down and looks back at the camera as the light inside clicks on. Sound: soft footsteps, claws clicking, mom saying "teeth inspector, all done".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
