Pillow Fort With the Kids

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A rainy afternoon pillow fort build: dragging couch cushions, draping the blanket roof, the dog moving in first, flashlight time inside and the whole thing caving in.

TIMELINE

0-5s	Dragging cushions
5-10s	Blanket roof
10-15s	Moving in
15-20s	Flashlight inside
20-25s	Fort collapse

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Dragging cushions): Living room on a rainy afternoon, dull grey window light, rain streaks on the glass. The son, an 11-year-old boy with short curly hair, drags a big couch cushion across the carpet. The dog follows him, grabbing at the corner of the cushion playfully. Sound: rain on the window, cushion dragging, the boy saying "let go". 5-10s (Blanket roof): Living room, rainy grey daylight, two dining chairs set apart on the carpet. The son and the daughter, a 7-year-old girl with two braids, throw a big red plaid blanket over the chairs. The dog sits watching, head tilted. One corner keeps falling down and the boy props it up with a book. Sound: blanket flapping, kids arguing about the door. 10-15s (Moving in): Living room, grey rainy afternoon light, the finished blanket fort with cushions for walls. Before the kids can crawl in, the dog walks straight through the opening, turns around and lies down inside, only her head poking out. She looks up at the camera with her mouth open, panting happily. Sound: both kids laughing, the girl shouting "that's our fort!". 15-20s (Flashlight inside): Inside the blanket fort, dim red-tinted light through the fabric, a small flashlight beam on the ceiling. The two kids lie on their bellies on either side of the dog, who rests her head on a pillow between them, eyes blinking at the flashlight. Sound: muffled rain, kids whispering, flashlight clicking. 20-25s (Fort collapse): Living room, rainy afternoon light. The dog stands up inside the fort and the plaid blanket slides off one chair onto her back and the kids. She shakes it off, tail wagging, while the kids roll around laughing in the cushions. Sound: chair scraping, kids screaming with laughter, tags rattling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Dragging cushions

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. Living room on a rainy afternoon, dull grey window light, rain streaks on the glass. The son, an 11-year-old boy with short curly hair, drags a big couch cushion across the carpet. The dog follows him, grabbing at the corner of the cushion playfully. Sound: rain on the window, cushion dragging, the boy saying "let go".

Clip 2 | 5-10s | Blanket roof

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
