MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Game box out): Dining table in the evening, warm hanging lamp, a bowl of pretzels in the middle. The dad, a man in his late 30s with a short dark beard, sets down a plain colorful game box with no readable text. The dog rests her chin on the edge of the table, watching. Sound: box thump, kids cheering, dad saying "chin off the table". 5-10s (Dice roll): Dining table, evening warm lamp, a simple game board with colored squares and no words. The daughter, a 7-year-old girl with two braids, shakes a cup and rolls dice onto the board. The dog lies under the table near her feet, away from the pieces. Sound: dice rattling in a cup, dice clattering, the girl yelling "six!". 10-15s (Winning cheer): Dining table, evening home lighting. The son, an 11-year-old boy with short curly hair, throws both arms up in the air cheering. The dog jumps up from under the table, tail wagging hard, and gives one excited bark. The game board stays flat on the table and the small pieces stay put. Sound: the boy shouting "I won!", one loud bark, everyone laughing. 15-20s (Her turn): Dining room, evening warm lamp. The mom, a woman in her mid 30s with shoulder-length brown hair, turns in her chair and holds out a plain dog biscuit. The dog sits politely beside her chair, takes the biscuit gently and crunches it. Sound: biscuit crunch, mom saying "okay, your turn, you win too". 20-25s (Packing up): Living room shelf in the evening, ordinary lamp light. The son slides the closed plain game box onto a low wooden shelf next to other boxes. The dog sniffs the shelf edge, then follows him toward the couch. A folded blanket and a basket of toys sit on the floor below. Sound: box sliding, footsteps, the boy saying "rematch tomorrow".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
