MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Laundry basket): Upstairs hallway, late morning daylight from a window, a light wooden floor. The son, an 11-year-old boy with short curly hair, carries a full plastic laundry basket. The dog walks alongside him, nudging the side of the basket with her nose. Sound: footsteps, basket creaking, the boy saying "you're not helping". 5-10s (Toy tidy): Kids' playroom, morning window light, a blue carpet with stuffed animals scattered around. The daughter, a 7-year-old girl with two braids, drops soft toys into a fabric bin. The dog picks up her own rope toy and drops it into the bin too. Sound: soft thumps, the girl cheering "good helper!". 10-15s (Watering plants): Back porch, sunny late morning, terracotta pots with tomato plants and herbs. The son tips a green plastic watering can over the pots. The dog sniffs the water dripping from the pots and licks a puddle on the concrete. Little drops of water fall from her chin back onto the porch. Sound: water trickling, birds, the boy laughing "that's for the plants". 15-20s (Trash run): Side of the house by the driveway, overcast midday light, a dark green wheelie bin by the fence. The son drags a tied trash bag to the bin and lifts it in. The dog walks next to him on a short leash held in his other hand. Sound: bin lid banging, a passing car, leash clinking. 20-25s (Making the bed): Little girl's bedroom, midday window light, a single bed. The daughter pulls the purple comforter flat and smooths it. The moment she finishes, the dog hops onto the bed, turns once and lies down right in the middle. Behind them the neighbor's wooden fence and a parked bike are visible. Sound: bed creaking, the girl groaning "I just made it!".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
