MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Kitchen salon): Kitchen on a weekend afternoon, plain window daylight, a chair on an old bedsheet in the middle of the beige tile floor. The son, an 11-year-old boy with short curly hair, sits with a towel around his shoulders. The dog sniffs the edges of the bedsheet. Sound: fridge hum, the boy saying "not too short, dad". 5-10s (Clippers buzz): Same kitchen, afternoon daylight. The dad, a man in his late 30s with a short dark beard, switches on electric clippers and runs them up the back of the boy's head. The dog sits a few feet away and tilts her head at the buzzing sound. Sound: clippers buzzing, dad saying "hold still". 10-15s (Curls on the floor): Kitchen floor, afternoon window light, small brown curls scattered on the white bedsheet. The dog steps closer and sniffs at a little pile of hair. The mom's hand comes into frame and gently guides her back by the collar. She sits down again on the tile floor and keeps watching the clippers. Sound: clippers buzzing, mom saying "leave it, that's not food". 15-20s (Her turn): Kitchen, afternoon daylight, the haircut chair now empty. The dad crouches and runs a wide dog brush along the dog's back as a pretend trim. The dog leans her whole body into his legs, eyes half closed, loose fur collecting on the brush. Sound: brush strokes, dad saying "next customer", the boy laughing. 20-25s (Sweeping up): Kitchen, late afternoon light. The son, with a neat fresh short haircut, sweeps hair into a dustpan with a broom. The dog lies on the rug by the back door watching him, her tail thumping slowly on the floor. The empty chair and folded bedsheet stand by the kitchen table. Sound: broom sweeping, the boy saying "how do I look?".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
