MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Aprons on): Grandma's small kitchen, afternoon window light, flowered curtains and old wooden cabinets. The grandma, a woman in her late 60s with short grey hair and glasses, ties a too-big apron on the daughter, a 7-year-old girl with two braids. The dog sits by the table, watching. Sound: kettle ticking as it cools, grandma saying "first, the apron". 5-10s (Flour puff): Grandma's kitchen table, afternoon daylight, a big mixing bowl of flour. The daughter stirs too hard and a puff of flour floats up. Some lands on the dog's nose as she watches from beside the chair, and she sneezes and shakes her head. Sound: a dog sneeze, the girl laughing, grandma saying "gently, gently". 10-15s (Rolling dough): Kitchen table, afternoon window light, a floured wooden board. The son, an 11-year-old boy with short curly hair, rolls out dough with a wooden rolling pin while the grandma's hands guide his. The dog lies on the floor under the table. Sound: rolling pin thumping, grandma saying "push away from you". 15-20s (Carrot reward): Grandma's kitchen counter, afternoon light, a pile of chopped carrots on a cutting board for soup. The grandma picks up one carrot round and bends down. The dog sits right away and takes the carrot gently from her fingers. Behind them a pot of water sits on the back burner, not yet boiling. Sound: crunch, grandma saying "one for my helper". 20-25s (Waiting by the door): Kitchen doorway, late afternoon light, a soup pot steaming on the stove in the background. The dog lies in the doorway with her head on her paws, watching the grandma and the kids lay fresh noodles on a floured towel to dry. Sound: pot bubbling, kids chattering, a contented dog sigh.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
