Grandpa's Afternoon Nap Buddy

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Grandpa's afternoon nap with his loyal nap partner: settling into the recliner, cap over his eyes, snoring together, the kids tiptoeing past and waking up with an ear scratch.

TIMELINE

0-5s	Recliner settle
5-10s	Cap over eyes
10-15s	Snoring together
15-20s	Tiptoe past
20-25s	Wake-up scratch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Recliner settle): Living room in the early afternoon, soft window light through lace curtains, a brown leather recliner. The grandpa, a man in his early 70s, bald, wearing a flat cap and a cardigan, leans back with a creak. The dog lies down right beside the footrest. Sound: recliner creaking, grandpa saying "just five minutes". 5-10s (Cap over eyes): Same living room, early afternoon daylight. The grandpa tips his flat cap down over his eyes and folds his hands on his belly. The dog rests her chin on the edge of the raised footrest, next to his socks. A cup of tea cools on the side table next to a folded newspaper turned face down. Sound: clock ticking, a long yawn. 10-15s (Snoring together): Living room, afternoon window light. The grandpa is asleep in the recliner, snoring softly with his cap over his face. Below, the dog's eyes slowly close and she lets out a deep sigh, her side rising and falling. Sunlight from the window falls in a soft patch across the carpet where she lies. Sound: soft snoring, a dog sigh, clock ticking. 15-20s (Tiptoe past): Living room, afternoon daylight. The daughter, a 7-year-old girl with two braids, tiptoes past the recliner with exaggerated steps. The dog lifts her head and thumps her tail twice on the carpet, but stays put. The girl covers her mouth with both hands to keep from giggling. Sound: the girl whispering "shhh", tail thumping, snoring. 20-25s (Wake-up scratch): Living room, late afternoon light. The grandpa pushes up his flat cap, stretches his arms and reaches down to scratch behind the dog's ear. She stretches her front legs out long and rolls a little toward him. His cap slips sideways and he laughs quietly, still half asleep. Sound: grandpa grunting "that was a good one, wasn't it".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Recliner settle

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. Living room in the early afternoon, soft window light through lace curtains, a brown leather recliner. The grandpa, a man in his early 70s, bald, wearing a flat cap and a cardigan, leans back with a creak. The dog lies down right beside the footrest. Sound: recliner creaking, grandpa saying "just five minutes".

Clip 2 | 5-10s | Cap over eyes

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
