Kids' Dance Party in the Living Room

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A spontaneous evening dance party with the kids and the dog: music on, spinning, silly moves and play bows, zoomies around the coffee table and everyone flopping on the rug.

TIMELINE

0-5s	Music on
5-10s	Spinning
10-15s	Play bow
15-20s	Zoomies
20-25s	Flop on the rug

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Music on): Living room in the evening, ordinary ceiling and lamp light, toys on the carpet. The son, an 11-year-old boy with short curly hair, taps a phone resting on a small speaker with the screen turned away. Music starts and the dog's head pops up from her bed. Sound: upbeat pop music starts, the boy saying "dance party!". 5-10s (Spinning): Living room, evening lamp light. The daughter, a 7-year-old girl with two braids and a twirly skirt, spins in circles on the carpet. The dog trots in loose circles around her, tail high, sniffing at the spinning skirt. Toys on the carpet get pushed aside by the swishing skirt. Sound: music, the girl giggling, claws on the floor. 10-15s (Play bow): Living room, evening light. The son does goofy arm-waving dance moves in front of the couch. The dog drops into a play bow in front of him, rear end up and tail wagging, and gives an excited bark. The boy bows back to her and they both freeze for a second. Sound: music, a sharp happy bark, the boy laughing. 15-20s (Zoomies): Living room, evening lamp light, a wooden coffee table in the middle of the room. The dog suddenly does zoomies, racing two laps around the coffee table, ears back, while both kids jump out of her way onto the couch. Sound: music, thundering paws, kids shrieking with laughter. 20-25s (Flop on the rug): Living room, evening light. Both kids collapse onto the carpet, out of breath. The dog lies down next to the daughter, panting, and licks her cheek while she squeals and covers her face. The son lies on his back nearby laughing at the ceiling, cushions scattered around them. Sound: music fading, heavy panting, the girl squealing "ew!".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
