Family Puzzle Night

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quiet family puzzle night around the coffee table: pouring out the pieces, sorting edges, searching for a missing piece with the dog's help, finding it and placing the last piece.

TIMELINE

0-5s	Pouring the pieces
5-10s	Sorting edges
10-15s	Missing piece hunt
15-20s	Found it
20-25s	Last piece

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Pouring the pieces): Living room in the evening, warm floor lamp light, a wooden coffee table. The mom, a woman in her mid 30s with shoulder-length brown hair, pours puzzle pieces onto a large tray. The dog lies on the rug a few feet away, head up, watching. Sound: pieces rattling, mom saying "okay, team". 5-10s (Sorting edges): Coffee table, evening lamp light, the puzzle picture is a plain mountain lake with no text. The son, an 11-year-old boy with short curly hair, slides edge pieces into a row. The dog rests her head on the rug, away from the table. Sound: pieces clicking, quiet music, a dog yawn. 10-15s (Missing piece hunt): Living room, evening lamp light. The daughter, a 7-year-old girl with two braids, lies flat on the carpet looking under the couch. The dog lies down right beside her and sniffs under the couch too, tail wagging. Only their legs and the dog's wagging tail stick out from the couch. Sound: the girl saying "where is it?", sniffing. 15-20s (Found it): Living room, evening light. The dad, a man in his late 30s with a short dark beard, lifts his foot from the rug and a puzzle piece is stuck to his sock. The mom picks it off before the dog's nose gets close. Sound: everyone laughing, dad saying "don't look at me". 20-25s (Last piece): Coffee table, evening warm lamp light, the finished mountain lake puzzle with one gap. The daughter presses the last piece in. The dog lifts her head from the rug and thumps her tail as the family claps. The dog stays lying on the rug, ears up, watching the piece in the mom's hand. Sound: clapping, the girl cheering "done!", tail thumping.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
