Indoor Camping in the Living Room

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A camping night without leaving the house: pitching a small tent in the living room, rolling out sleeping bags, flashlight shadows, a camp snack and lights out with the dog at the door.

TIMELINE

0-5s	Tent pitch
5-10s	Sleeping bags
10-15s	Flashlight shadows
15-20s	Camp snack
20-25s	Lights out

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Tent pitch): Living room in the evening, ordinary lamp light, furniture pushed to the walls. The dad, a man in his late 30s with a short dark beard, pops open a small green dome tent on the carpet. The dog walks around it sniffing every corner. Sound: tent poles clicking, nylon rustling, dad saying "campsite ready". 5-10s (Sleeping bags): Living room, evening lamp light, the tent door unzipped. The son, an 11-year-old boy with short curly hair, and the daughter, a 7-year-old girl with two braids, unroll sleeping bags inside. The dog steps in and lies on one of them. Sound: zipper, sleeping bags rustling, the girl saying "that's mine". 10-15s (Flashlight shadows): Inside the tent at night, dim light, a flashlight shining on the tent wall. The son makes a hand shadow of a barking dog on the green fabric. The real dog watches the shadow, ears forward, head tilting. The flashlight beam wobbles a little as the boy tries to keep his hand steady. Sound: kids giggling, the boy saying "woof", a quiet huff. 15-20s (Camp snack): Tent doorway in the living room, evening lamp light, small string lights over the couch. The dad hands the kids a plate of crackers and apple slices, and gives the dog a carrot stick, which she chews lying at the tent door. Sound: crunching, dad saying "camp rations", kids laughing. 20-25s (Lights out): Living room at night, only the small string lights on, the tent zipped halfway. The dog lies across the tent doorway with her head on her paws, the kids' sleeping bags visible behind her. She blinks slowly at the camera. Sound: quiet house, a kid whispering "night", a long dog sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
