Building Block Tower Afternoon

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An afternoon of building a giant tower with big wooden blocks: tipping out the bin, stacking, a wobble from her tail, dad adding the top and the big topple.

TIMELINE

0-5s	Tipping the bin
5-10s	Stacking
10-15s	Tail wobble
15-20s	Dad adds the top
20-25s	Topple

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Tipping the bin): Kids' playroom, afternoon window light, a blue carpet. The daughter, a 7-year-old girl with two braids, tips a bin of large plain wooden blocks, each bigger than a hand, onto the carpet. The dog jumps back from the noise, then sniffs a block. Sound: wooden blocks clattering, the girl laughing. 5-10s (Stacking): Playroom, afternoon daylight. The daughter and the son, an 11-year-old boy with short curly hair, stack the big blocks into a tower on the carpet. The dog lies a few feet away with her chin on her paws, eyes following each block. Sound: blocks knocking, the boy saying "careful, careful". 10-15s (Tail wobble): Playroom, afternoon light, the tower now waist high. The dog stands up and wags her tail right next to it, and the tower wobbles. The son grabs it with both hands and it stays standing. The dog sits back down, tail still, and looks up at the boy. Sound: blocks rattling, both kids gasping "noooo". 15-20s (Dad adds the top): Playroom, late afternoon window light. The dad, a man in his late 30s with a short dark beard, kneels and carefully sets one last block on top of the tower, now taller than the daughter. The dog sits watching, ears forward. Sound: a careful click of wood, dad whispering "don't breathe". 20-25s (Topple): Playroom, late afternoon light. The daughter gives the tower a little push and it crashes down onto the carpet. The dog hops back, then trots over and sniffs through the scattered big blocks, tail wagging. A few blocks roll under the window seat and the kids burst out laughing. Sound: a loud crash of blocks, everyone cheering, one bark.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
