Family Bike Path Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A family morning on the paved bike path: helmets on, the kids pedaling ahead, the dog jogging calmly beside the dad's walking pace, a water break and a rest on a bench.

TIMELINE

0-5s	Helmets on
5-10s	Kids ride ahead
10-15s	Easy jog alongside
15-20s	Water break
20-25s	Bench rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Helmets on): Parking area at the start of a paved bike path, cool morning, bright overcast daylight, bikes leaning on a wooden post. The mom, a woman in her mid 30s with shoulder-length brown hair, buckles a blue helmet under the daughter's chin. The dog sits on a leash beside them, sniffing the daughter's bike tire. Sound: helmet strap clicking, birds, bike bell ding, daughter says "tighter?". 5-10s (Kids ride ahead): Paved bike path through a park, morning daylight, green grass and young trees on both sides. The son, an 11-year-old boy with short curly hair, and the daughter, a 7-year-old girl with two braids, pedal away slowly down the path. The dog stands on her leash at the edge, ears up, watching them go. Sound: bike chains clicking, tires on pavement, kids calling "come on!". 10-15s (Easy jog alongside): Paved bike path, bright morning, trees and a small pond on one side. The dad, a man in his late 30s with a short dark beard, walks briskly holding the dog's leash while she trots calmly at his side on the grass edge, tongue out, keeping a steady pace behind the kids on their bikes. Sound: paws padding, dad's footsteps, ducks quacking far off, panting. 15-20s (Water break): Beside the bike path under a shady maple, late morning daylight, bikes lying in the grass. The son crouches and pours water from a bottle into a collapsible blue silicone bowl. The dog drinks noisily, water dripping from her chin, while the daughter sips from her own bottle nearby. Sound: water pouring, loud lapping, son says "she was thirsty", leaves rustling. 20-25s (Bench rest): Wooden bench beside the paved bike path, late morning sunshine, a grassy field behind. The mom sits on the bench with the daughter leaning on her shoulder, helmets on their laps. The dog lies on the path at their feet, panting slowly, then rests her head on the mom's sneaker. Sound: distant bike bell, wind in grass, panting slowing down, mom says "good team".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
