Little League Game Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Little League game day for the son: a pregame catch in the parking lot grass, the dog on leash by the bleachers, watching him bat, a run to home plate and a dusty high five.

TIMELINE

0-5s	Pregame catch
5-10s	By the bleachers
10-15s	Watching him bat
15-20s	Run for home
20-25s	Dusty high five

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Pregame catch): Grassy strip beside a ballpark parking lot, sunny late afternoon, chain-link fence behind. The son, an 11-year-old boy with short curly hair, in a white baseball uniform, tosses a ball into the dad's glove. The dog sits on her leash tied to the dad's belt, head following the ball back and forth. Sound: ball popping into glove, cleats on gravel, dad says "nice throw". 5-10s (By the bleachers): Beside low aluminum bleachers at a Little League field, warm afternoon sunshine, red infield dirt beyond the fence. The mom, a woman in her mid 30s with shoulder-length brown hair, sits on the bottom bench holding the dog's leash. The dog lies in the shade under the bench, panting gently. Sound: bleachers creaking, parents chatting, distant bat ping, panting. 10-15s (Watching him bat): Behind the chain-link fence near home plate, sunny afternoon, dusty infield. The dog stands with her nose near the fence, ears up, watching the son in his batting helmet take a practice swing. The mom's hand holds the leash in the corner of the frame. The dog's tail wags slowly. Sound: bat swishing, umpire's voice, ball smacking a mitt, mom says "that's him". 15-20s (Run for home): Little League field seen through the fence, late afternoon sunshine, red dust rising. The son sprints from third base toward home plate and slides in feet first. On the grass in front of the fence, the dog jumps up and spins once on her leash as everyone around starts cheering. Sound: cheering, cleats pounding, dust skidding, mom yelling "safe!". 20-25s (Dusty high five): Outside the dugout gate, early evening light, the field emptying behind. The son, uniform covered in red dust, kneels and holds up his hand. The dog sniffs his dusty knee, then licks his palm, and he laughs and rubs her ears with his glove still on his other hand. Sound: kids talking, gate clanging, son laughing "she's my lucky charm".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
