Blueberry Picking Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A u-pick blueberry farm with the family: walking the rows, filling buckets, the dog sniffing the bushes on leash, getting a few blueberries of her own and a purple-fingered rest.

TIMELINE

0-5s	Walking the rows
5-10s	Filling the bucket
10-15s	Sniffing bushes
15-20s	Her own berries
20-25s	Purple fingers rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Walking the rows): U-pick blueberry farm, warm sunny morning, long rows of waist-high green bushes with straw on the ground. The mom, a woman in her mid 30s with shoulder-length brown hair, walks down a row holding the dog's purple leash and a small white bucket. The dog trots ahead, nose low along the straw. Sound: straw crunching, bees buzzing, birds, mom says "this row looks good". 5-10s (Filling the bucket): Between blueberry bushes, bright morning sun, dusty blue berries hanging in clusters. The daughter, a 7-year-old girl with two braids, picks berries one at a time and drops them into a plastic bucket hanging from her neck. The dog sits beside her and sniffs the bottom of the bucket. Sound: berries plinking into the bucket, bees, daughter counting "five, six". 10-15s (Sniffing bushes): Blueberry rows, warm late-morning sunshine, straw and dry dirt underfoot. The dog pushes her nose deep into the low leaves of a bush, sniffing hard, then sneezes and backs out with a leaf stuck to her ear. The son, an 11-year-old boy with short curly hair, holds her leash and laughs. Sound: leaves rustling, a loud sneeze, son laughing "bless you". 15-20s (Her own berries): Blueberry farm row, sunny late morning. The dad, a man in his late 30s with a short dark beard, crouches and holds three fresh blueberries on his flat palm. The dog sniffs them carefully, then gently licks them up one by one and chews, looking up for more. Sound: soft chewing, bees buzzing, dad says "just a few for you". 20-25s (Purple fingers rest): Shady spot under a tree at the end of the blueberry rows, late morning light, buckets full on the grass. The daughter shows her purple-stained fingers to the camera while the dog lies next to her on the grass, panting, a few berry leaves stuck in her fur. Sound: wind in leaves, panting, daughter giggling "my hands are blue".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
