Family Nature Trail Scavenger Hunt

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A nature trail scavenger hunt with the kids: finding a pinecone, a feather, a smooth rock at the creek, a mossy log, and the dog sniffing out every find.

TIMELINE

0-5s	Pinecone found
5-10s	Feather hunt
10-15s	Creek rock
15-20s	Mossy log
20-25s	Checking the bag

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Pinecone found): Forest nature trail, cool autumn morning, soft overcast light, brown leaves on a dirt path. The daughter, a 7-year-old girl with two braids, crouches and picks up a big pinecone, holding it up high. The dog, on a leash held by the mom, sniffs the pinecone and wags. Sound: leaves crunching, birds, daughter shouting "found one!". 5-10s (Feather hunt): Forest trail beside tall ferns, overcast morning daylight. The son, an 11-year-old boy with short curly hair, spots a grey feather on the ground. The dog gets to it first, sniffing it so hard it flutters away a few inches, and the son quickly grabs it before it blows off. Sound: ferns rustling, sniffing, son laughing "she almost ate it". 10-15s (Creek rock): Shallow rocky creek crossing on the trail, dim forest daylight, water only a few inches deep. The daughter squats on a flat rock and lifts a smooth grey stone out of the water. The dog stands in the shallow trickle beside her on leash, lapping at the cold water. Sound: creek babbling, lapping, splashes, daughter saying "a smooth one". 15-20s (Mossy log): Forest trail, overcast late morning, a fallen log covered in thick green moss beside the path. The mom, a woman in her mid 30s with shoulder-length brown hair, points at the moss and the kids touch it. The dog walks along the log's length, nose pressed to the moss, tail high. Sound: birds, soft footsteps, mom says "feel how soft", sniffing. 20-25s (Checking the bag): Wooden bench at the trailhead, overcast daylight, trees behind. The kids empty a paper bag of finds onto the bench: pinecone, feather, rock, acorns. The dog puts her front paws on the bench edge, sniffs the pile carefully, and the son gently moves the feather away from her nose. Sound: items clattering, kids chattering, son says "we got everything".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
