Visiting the Farm Stand

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A Saturday stop at a roadside farm stand: walking up on leash, sniffing crates of produce, the kids picking corn, the dog getting a crunchy carrot and loading the van.

TIMELINE

0-5s	Walking up
5-10s	Produce crates
10-15s	Picking corn
15-20s	Crunchy carrot
20-25s	Loading the van

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Walking up): Gravel lot in front of a small wooden roadside farm stand, sunny late summer morning, cornfields behind. The dad, a man in his late 30s with a short dark beard, walks toward the stand with the dog on a short leash at his side. She sniffs the air, nose twitching at all the smells. Sound: gravel crunching, wind in corn, truck passing on the road. 5-10s (Produce crates): Under the farm stand's tin roof, bright morning sunshine outside, wooden crates of tomatoes, peppers and zucchini on low tables. The dog sniffs along the bottom row of crates on her leash, very interested in a box of cucumbers. The mom's hand gently guides her back. Sound: sniffing, paper bags rustling, mom says "we look, we don't lick". 10-15s (Picking corn): Beside a big bin of sweet corn at the farm stand, sunny morning. The son, an 11-year-old boy with short curly hair, and the daughter, a 7-year-old girl with two braids, pull ears of corn from the pile and drop them into a paper bag. The dog watches from the side, sitting on the dusty floor. Sound: corn husks rustling, kids chatting, bag crinkling, birds. 15-20s (Crunchy carrot): Edge of the farm stand by a crate of carrots, warm morning light. The mom, a woman in her mid 30s with shoulder-length brown hair, snaps a washed carrot in half and offers a piece. The dog takes it, lies down on the gravel and crunches loudly, holding it between her front paws. Sound: carrot snapping, loud crunching, mom says "you like that". 20-25s (Loading the van): Gravel lot beside the grey minivan, late morning sun, cornfield in the background. The dad sets paper bags of corn and tomatoes in the back while the dog hops into the rear section and stands still for him to clip her harness to the seatbelt tether. She sniffs the bags beside her. Sound: bags rustling, buckle clicking, hatch closing, dad says "all aboard".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
