Family Kite Flying Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A windy afternoon on a big hill with kites: unrolling the kite, the launch, the dog chasing its shadow, the daughter holding the string and a tangle on the grass.

TIMELINE

0-5s	Unrolling the kite
5-10s	The launch
10-15s	Chasing the shadow
15-20s	Daughter holds string
20-25s	Tangled landing

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Unrolling the kite): Top of a wide grassy hill in a park, windy spring afternoon, puffy white clouds in a blue sky. The dad, a man in his late 30s with a short dark beard, unrolls a red diamond kite on the grass. The dog sniffs the flapping tail ribbons and jumps back when one flicks her nose. Sound: strong wind, kite fabric flapping, dad laughing "it won't bite". 5-10s (The launch): Grassy park hill, bright windy afternoon. The son, an 11-year-old boy with short curly hair, runs down the slope holding the string while the kite lifts behind him. The dog runs alongside on a long leash held by the mom, barking once as the kite rises above them. Sound: wind gusting, running feet, one bark, son yelling "it's up!". 10-15s (Chasing the shadow): Open grassy hillside, sunny windy afternoon. The red kite's shadow slides back and forth across the grass. The dog, on her long leash, trots after the moving shadow, pouncing on it with her front paws and looking confused when it moves away again. Sound: wind, kite string humming, mom laughing "she's chasing the shadow". 15-20s (Daughter holds string): Top of the grassy hill, bright afternoon, the red kite high in the sky. The daughter, a 7-year-old girl with two braids, holds the kite handle with both hands while the dad stands right behind her steadying it. The dog sits pressed against the daughter's legs, looking up at the sky. Sound: wind roaring, string tugging, daughter saying "it's pulling me!". 20-25s (Tangled landing): Grassy hillside, late afternoon, wind dying down. The red kite drifts down and lands in the grass. The dog trots over and sniffs it, the tail ribbon wrapping lightly around her front leg. The son kneels and unwraps it while she licks his ear. Sound: soft wind, kite rustling, son laughing "hold still, silly".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
