MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Packing snowballs): Snowy front yard, bright winter morning, deep fresh snow and white-covered bushes. The son, an 11-year-old boy with short curly hair, in a blue snow jacket, packs a snowball between his mittens. The dog bounces through the deep snow beside him, sniffing his hands. Sound: snow crunching, mittens packing, son saying "get ready, dad". 5-10s (Kids versus parents): Snowy front yard, sunny morning, a parked car covered in snow. The dad, a man in his late 30s with a short dark beard, ducks behind a snowbank laughing as a snowball hits his shoulder. The dog races toward the burst of snow and sniffs the spot where it landed. Sound: snowball thudding, laughter, dog panting, dad shouting "no fair!". 10-15s (Low roll chase): Front yard covered in fresh snow, bright winter daylight. The daughter, a 7-year-old girl with two braids, in a pink snowsuit, rolls a loose snowball low along the ground away from the dog. The dog bounds after it, pounces and it falls apart under her paws. Sound: snow crunching, giggling, daughter saying "where'd it go?". 15-20s (Catching snow puffs): Snowy yard, bright cold morning, snow-covered fence behind. The mom, a woman in her mid 30s with shoulder-length brown hair, tosses a soft handful of loose snow up in the air well away from the dog's face. The dog leaps and snaps at the falling powder, then sneezes. Sound: snow puffing, a snap and a sneeze, mom laughing "got it!". 20-25s (Warming up inside): Front entryway, warm yellow ceiling light, wet boots and mittens on a rubber mat. The dog stands on an old towel while the son rubs snowballs off the fur of her legs. Melting snow clumps fall onto the mat and she shakes, spraying water on everyone. Sound: towel rubbing, water spraying, kids squealing, mom says "towel time".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
