Making Snow Forts With the Kids

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Building a snow fort in the backyard: stacking snow blocks, the dog patrolling the walls, digging the door, crawling inside and a hot cocoa break for the kids.

TIMELINE

0-5s	Snow blocks
5-10s	Stacking walls
10-15s	Digging the door
15-20s	Crawling inside
20-25s	Cocoa break

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Snow blocks): Backyard deep in snow, grey overcast winter afternoon, bare trees along the fence. The son, an 11-year-old boy with short curly hair, packs snow into a plastic storage bin and flips it over to make a block. The dog sniffs the block and leaves a nose print in it. Sound: snow scraping, bin thumping, son says "don't wreck it". 5-10s (Stacking walls): Snowy backyard, flat grey daylight, a low snow wall forming. The daughter, a 7-year-old girl with two braids, pats snow into the gaps between blocks with her mittens. The dog walks slowly along the outside of the wall, sniffing each block like she's inspecting it. Sound: mittens patting, snow crunching, daughter humming. 10-15s (Digging the door): Backyard snow fort, overcast afternoon, snow piled high. The dad, a man in his late 30s with a short dark beard, scoops out an opening in the wall with a small shovel. The dog helps from the other side, digging with her front paws and throwing snow back between her legs. Sound: shovel scraping, paws digging, dad laughing "thanks for the help". 15-20s (Crawling inside): Inside the small open-top snow fort, grey afternoon light from above, packed snow walls. The daughter sits cross-legged inside. The dog pushes her head and shoulders through the doorway, then squeezes the rest of her body in and lies down next to the daughter. Sound: snow crunching, giggles, daughter saying "it's our fort now". 20-25s (Cocoa break): Back porch steps beside the snowy yard, late afternoon, cold blue-grey light, porch light on. The kids sit on the steps holding mugs of hot cocoa, steam rising. The dog sits between them with snow in her fur, sniffing at the steam, and the son lifts his mug away from her nose. Sound: slurping, wind, son says "cocoa is not for dogs".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Snow blocks

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. Backyard deep in snow, grey overcast winter afternoon, bare trees along the fence. The son, an 11-year-old boy with short curly hair, packs snow into a plastic storage bin and flips it over to make a block. The dog sniffs the block and leaves a nose print in it. Sound: snow scraping, bin thumping, son says "don't wreck it".

Clip 2 | 5-10s | Stacking walls

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
