Visiting the Grandparents' Farm

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A weekend visit to the grandparents' small farm: a happy welcome at the gate, feeding chickens from behind the fence, watching the tractor, gathering eggs and porch rest with grandpa.

TIMELINE

0-5s	Gate welcome
5-10s	Chicken watching
10-15s	Tractor watch
15-20s	Gathering eggs
20-25s	Porch rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Gate welcome): Gravel farm driveway by a white wooden gate, sunny autumn morning, red barn in the background. The grandpa, a man in his early 70s, bald, wearing a flat cap, bends down with open arms. The dog, on a leash held by the son, wags her whole body and pushes her head into his hands. Sound: gravel crunching, rooster crowing, grandpa saying "there's my girl". 5-10s (Chicken watching): Outside a wire chicken run beside the barn, bright morning sun, brown hens pecking at feed. The daughter, a 7-year-old girl with two braids, tosses grain over the fence. The dog sits on her leash a few feet back, ears forward, quietly watching the hens bob and scratch. Sound: hens clucking, grain scattering, daughter saying "here, chickies". 10-15s (Tractor watch): Edge of a mowed field, sunny morning, an old green tractor rumbling slowly along the far side. The son, an 11-year-old boy with short curly hair, stands at the fence holding the dog's leash. The dog watches the tractor go by, head turning, ears flicking at the engine noise. Sound: tractor engine chugging, wind, son says "grandpa's waving". 15-20s (Gathering eggs): Inside a small wooden henhouse doorway, dim daylight through slats, straw on the floor. The grandma, a woman in her late 60s with short grey hair and glasses, places brown eggs into a wire basket. The dog stands outside the door on leash, nose stretched in, sniffing the straw. Sound: hens murmuring, straw rustling, grandma saying "gentle hands, dear". 20-25s (Porch rest): Wide wooden farmhouse porch, warm late-morning sunshine, rocking chairs and a potted geranium. The grandpa sits in a rocking chair and the dog lies on the porch boards beside him, his hand scratching behind her ear while she slowly closes her eyes. Sound: rocking chair creaking, rooster far off, grandpa says "good farm dog".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
