Family Garden Planting Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Spring planting day in the backyard garden beds: hauling soil, digging holes, planting tomato seedlings with the kids, the dog sniffing the fresh dirt and a watering can finish.

TIMELINE

0-5s	Hauling soil
5-10s	Digging holes
10-15s	Planting seedlings
15-20s	Dirt nose
20-25s	Watering can

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Hauling soil): Backyard beside two raised wooden garden beds, mild spring morning, soft overcast light. The dad, a man in his late 30s with a short dark beard, pushes a wheelbarrow full of dark soil across the grass. The dog trots beside the wheelbarrow, sniffing at the rim. Sound: wheelbarrow squeaking, birds, dad saying "coming through". 5-10s (Digging holes): Raised garden bed in the backyard, overcast spring morning, fresh dark soil. The son, an 11-year-old boy with short curly hair, digs small holes with a hand trowel. The dog puts her front paws on the wooden edge and watches, nose twitching at the smell of the damp dirt. Sound: trowel scraping soil, birds, son saying "one more". 10-15s (Planting seedlings): Backyard raised bed, soft spring daylight, small tomato seedlings in black plastic pots. The daughter, a 7-year-old girl with two braids, sets a seedling in a hole while the mom, a woman in her mid 30s with shoulder-length brown hair, pats soil around it. The dog lies on the grass nearby. Sound: soil patting, pots clattering, mom says "nice and gentle". 15-20s (Dirt nose): Edge of the backyard garden, overcast morning light, a pile of spare soil on a tarp. The dog pushes her nose deep into the soil pile, sniffing hard, and comes up with dirt on her black muzzle. The son wipes it off with his gloved hand, laughing. Sound: snuffling, sneeze, son laughing "you're filthy". 20-25s (Watering can): Raised garden beds in the backyard, light breaking through clouds, wet soil. The daughter tips a green plastic watering can over the seedlings. The dog sniffs at the dripping spout, gets a few drops on her nose and backs away, shaking her head, ears flapping. Sound: water sprinkling, ears flapping, daughter giggling "she got watered too".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
