MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Stringing lights): Living room, winter evening, warm lamp light, a bare green tree in the corner and plastic storage bins on the carpet. The dad, a man in his late 30s with a short dark beard, wraps a string of small white lights around the tree. The dog watches from the couch cushion beside it. Sound: lights clicking, soft holiday music from another room, dad says "higher?". 5-10s (Ornament box): Living room carpet by the tree, evening lamp light, an open cardboard box of wrapped ornaments. The dog pushes her nose into the box and sniffs the tissue paper. The daughter, a 7-year-old girl with two braids, gently lifts her nose out and pulls out a red ornament. Sound: tissue paper crinkling, sniffing, daughter saying "not for you". 10-15s (Hanging ornaments): Living room, warm lamp light, tree half decorated. The son, an 11-year-old boy with short curly hair, hangs a felt ornament on a high branch. The dog sits right behind him, watching, tail sweeping across the carpet. Breakable ornaments stay on the top branches. Sound: branches rustling, ornaments clinking, son says "up high so she can't reach". 15-20s (Grandma and the star): Living room by the tree, evening lamp light. The grandma, a woman in her late 60s with short grey hair and glasses, hands a gold star to the son, who stands on a low step stool while the dad steadies it. The dog sits at the grandma's feet, leaning on her leg. Sound: step stool creaking, grandma saying "right on top, sweetheart", cheering. 20-25s (Under the lit tree): Living room at night, main lights off, only the small white tree lights and one lamp on. The dog lies on the carpet under the decorated tree on an old blanket, the kids lying on their stomachs beside her. Her eyes slowly close while the daughter strokes her ear. Sound: quiet music, soft breathing, daughter whispering "merry Christmas, girl".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
