Family Visit to the Lighthouse

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A breezy family day trip to a coastal lighthouse: walking the path, the dog sniffing the salty grass, watching waves from the rocks at a safe distance, grandma on the bench and a family photo with the lighthouse behind.

TIMELINE

0-5s	Lighthouse path
5-10s	Salty grass sniff
10-15s	Watching the waves
15-20s	Grandma's bench
20-25s	Family photo

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Lighthouse path): Gravel path along a grassy coastal headland, breezy sunny afternoon, a white lighthouse ahead and blue sea beyond. The dad, a man in his late 30s with a short dark beard, walks the dog on a leash, the wind blowing her fur back. The kids walk ahead. Sound: strong wind, waves crashing below, gulls, gravel crunching. 5-10s (Salty grass sniff): Coastal headland, windy sunny afternoon, tufts of tall dune grass bending in the wind. The dog pushes her nose into the grass, sniffing hard, ears flattening in the gusts. The daughter, a 7-year-old girl with two braids, crouches next to her holding her hat on. Sound: wind howling, grass rustling, daughter saying "it's so windy!". 10-15s (Watching the waves): Behind a low wooden fence above the rocky shore, bright afternoon, waves breaking white on the rocks far below. The son, an 11-year-old boy with short curly hair, holds the dog's leash. The dog stands beside him well back from the edge, ears up, watching the spray. Sound: waves crashing, wind, gulls, son says "look at that one". 15-20s (Grandma's bench): Wooden bench near the base of the white lighthouse, sunny breezy afternoon, sea in the background. The grandma, a woman in her late 60s with short grey hair and glasses, sits wrapped in a cardigan, and the dog rests her chin on the grandma's knee while she strokes her head. Sound: wind, distant waves, grandma saying "what a view, sweetheart". 20-25s (Family photo): Grassy lawn in front of the white lighthouse, late afternoon sun, blue sky. The mom, a woman in her mid 30s with shoulder-length brown hair, kneels with the kids while the dog sits in front of them. The dog turns her head toward a gull just as the photo is taken, and everyone laughs. Sound: wind, gull calling, laughter, dad saying "look here, girl".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
