Big Sister's Best Friend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog acts like a big sister to our 7-year-old daughter all day: a wake-up nudge, breakfast company, swing watching, porch secrets and a nap side by side on the rug.

TIMELINE

0-5s	Wake-up nudge
5-10s	Breakfast company
10-15s	Swing watch
15-20s	Porch secrets
20-25s	Side by side nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Wake-up nudge): Kids' bedroom, early morning, pale daylight through thin striped curtains, toys on the carpet. The daughter, a 7-year-old girl with two braids, is a lump under a pink blanket. The dog walks up to the bed, pushes her nose under the blanket edge and nudges until a sleepy hand comes out and pats her head. Sound: quiet room, tags jingling, a sleepy giggle, mom whispers "she's up". 5-10s (Breakfast company): Small kitchen, morning window light, beige tile floor, cereal box on the table. The daughter, a 7-year-old girl with two braids, eats cereal at the table. The dog sits close beside her chair, resting her chin on the girl's knee, eyes following every spoonful while the girl pats her head with her free hand. Sound: spoon clinking in a bowl, crunching, a soft whine, kitchen clock ticking. 10-15s (Swing watch): Ordinary backyard, overcast daylight, patchy grass, a simple wooden swing hanging from an old maple branch. The daughter, a 7-year-old girl with two braids, swings gently back and forth. The dog sits on the grass a safe distance away, head moving with each swing, tail sweeping the grass. Sound: creaking rope, birds, the girl humming, light breeze in the leaves. 15-20s (Porch secrets): Back porch steps, late afternoon, soft natural daylight, worn grey paint and a pair of small sneakers on the step. The daughter, a 7-year-old girl with two braids, sits with her arm around the dog's neck and whispers into her ear. The dog stays still, ears twitching, then licks the girl's cheek once. Sound: faint whispering, a giggle, distant lawn mower, the dog's soft sniff. 20-25s (Side by side nap): Living room, afternoon, ordinary lamp switched on and grey light from the window, worn beige rug with a few toys around. The daughter, a 7-year-old girl with two braids, lies asleep on the rug with her head resting against the dog's side. The dog lies calmly, breathing slowly, and lifts her eyes to the camera. Sound: slow breathing, a soft dog sigh, mom whispering "best friends".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
