Little Brother Learns to Walk Her

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Our 11-year-old son walks the dog by himself for the first time while dad stays a step behind: the leash lesson, first steps, a curb sit, a sniff break and a proud return.

TIMELINE

0-5s	Leash lesson
5-10s	First steps
10-15s	Curb sit
15-20s	Sniff break
20-25s	Proud return

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Leash lesson): Front hallway, afternoon daylight from the open door, shoes lined up on a mat. The dad, a man in his late 30s with a short dark beard, shows the son, an 11-year-old boy with short curly hair, how to loop the purple leash over his wrist. The dog sits between them, tail sweeping the floor, watching the door. Sound: tags jingling, dad says "hold it like this, not too tight". 5-10s (First steps): Quiet suburban sidewalk, crisp autumn afternoon, natural daylight, fallen leaves along the curb and parked cars. The son, an 11-year-old boy with short curly hair, walks holding the leash with both hands, the dog trotting calmly at his side. The dad, a man with a short dark beard, follows one step behind with his hands in his pockets. Sound: leaves crunching, footsteps, distant dog barking, the boy says "good girl". 10-15s (Curb sit): Street corner with a low curb, overcast autumn daylight, a hedge and a mailbox nearby. The son, an 11-year-old boy with short curly hair, stops at the curb and says sit. The dog sits right away beside his sneakers. The boy looks back at the dad, who stands close by and gives a thumbs up. Sound: a car passing slowly, the boy says "sit", dad says "nice". 15-20s (Sniff break): Grass strip beside the sidewalk, cool autumn daylight, a wooden fence and a few yellow leaves. The dog stops to sniff a tuft of grass for a long time. The son, an 11-year-old boy with short curly hair, waits patiently holding the loose leash, shrugging and grinning at the camera while she keeps sniffing. Sound: sniffing, wind, boy laughs and says "she reads everything". 20-25s (Proud return): Home driveway, late afternoon, natural fading daylight, a basketball on the lawn. The son, an 11-year-old boy with short curly hair, walks up the driveway with the dog beside him, crouches and gives her a small treat from his pocket, then high-fives the dad, a man with a short dark beard, standing next to them. Sound: tags jingling, a soft crunch, a loud high-five, dad says "first solo walk".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Leash lesson

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. Front hallway, afternoon daylight from the open door, shoes lined up on a mat. The dad, a man in his late 30s with a short dark beard, shows the son, an 11-year-old boy with short curly hair, how to loop the purple leash over his wrist. The dog sits between them, tail sweeping the floor, watching the door. Sound: tags jingling, dad says "hold it like this, not too tight".

Clip 2 | 5-10s | First steps

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. Quiet suburban sidewalk, crisp autumn afternoon, natural daylight, fallen leaves along the curb and parked cars. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
