First Day of School Send-Off

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The dog helps send the kids off on the first day of school: lunchbox packing, backpack inspection, a porch photo, the walk to the corner and waiting by the door afterward.

TIMELINE

0-5s	Lunchbox packing
5-10s	Backpack inspection
10-15s	Porch photo
15-20s	Walk to the corner
20-25s	Waiting by the door

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Lunchbox packing): Kitchen, early morning, cool daylight through the window, beige tile floor and cereal bowls on the counter. The mom, a woman in her mid 30s with shoulder-length brown hair, zips up two plain lunchboxes. The dog sits on the tiles right beside her legs, nose lifted, sniffing the air toward the counter. Sound: zipper, a paper bag rustling, sniffing, mom says "none of this is for you". 5-10s (Backpack inspection): Front hallway, morning daylight from the door window, shoes scattered on the mat. The daughter, a 7-year-old girl with two braids, and the son, an 11-year-old boy with short curly hair, pull on new plain backpacks. The dog circles them, sniffing the new backpacks carefully from bottom to top. Sound: sniffing, backpack straps clicking, kids chattering, tags jingling. 10-15s (Porch photo): Front porch steps, bright morning, natural daylight, potted mums beside the door. The daughter with two braids and the son with short curly hair sit on the top step with the dog between them. The kids smile at the camera, the dog looks away at a passing car, then turns and licks the girl's ear. Sound: mom says "everybody look here", kids laughing, a car passing. 15-20s (Walk to the corner): Quiet residential street, morning daylight, trees along the sidewalk. The dad, a man in his late 30s with a short dark beard, holds the dog's leash while the son with short curly hair and the daughter with two braids walk ahead toward the corner. At the corner the kids turn and wave, the dog sits and watches them go. Sound: footsteps, birds, kids shouting "bye", distant children's voices. 20-25s (Waiting by the door): Front hallway, mid-morning, quiet house, soft daylight through the door window, two pairs of kids' slippers left on the mat. The dog lies on the floor with her nose pressed to the bottom of the front door, ears up, then lets out a long sigh and rests her chin on one of the slippers. Sound: quiet house, a clock ticking, a long dog sigh, mom says "they'll be back".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
