The Kids Teach Her a New Trick

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

On a rainy afternoon the kids teach the dog to touch their palm with her nose: first try, a funny mix-up, a longer reach, the daughter's success and a show for mom.

TIMELINE

0-5s	First try
5-10s	Funny mix-up
10-15s	Longer reach
15-20s	Daughter's turn
20-25s	Show for mom

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (First try): Living room, rainy afternoon, ordinary lamps switched on, rain on the window, a worn beige rug. The son, an 11-year-old boy with short curly hair, kneels holding out a flat palm close to the dog's nose. The dog sniffs it, bumps it with her nose and the boy instantly gives her a small treat. Sound: rain tapping, the boy says "touch, yes!", crunching. 5-10s (Funny mix-up): Same living room, rainy afternoon, lamp light. The daughter, a 7-year-old girl with two braids, holds out her palm and says touch. The dog looks at the hand, then sits, then lies down, then offers her paw, trying everything she knows. The girl covers her mouth laughing. Sound: girl giggling, rain, son says "she's guessing". 10-15s (Longer reach): Living room, rain outside, warm ordinary lamp light, couch cushions on the floor. The son, an 11-year-old boy with short curly hair, holds his palm out farther away at knee height. The dog stands, takes two steps, and firmly bumps his palm with her nose. He pops a treat into her mouth. Sound: paws on the rug, a nose bump, boy cheers "yes, good girl". 15-20s (Daughter's turn): Same living room, rainy afternoon, lamp light. The daughter, a 7-year-old girl with two braids, holds her small palm out low and stays very still. The dog sniffs, then taps her palm with her nose. The girl gasps, gives the treat and bounces on her knees. Sound: girl squeals "she did it for me!", crunching, rain. 20-25s (Show for mom): Living room, evening, lamps on, rain still falling outside. The son with short curly hair and the daughter with two braids sit on the rug facing each other, each holding out a palm. The dog turns back and forth, touching one palm, then the other, tail wagging, while the kids grin at the camera. Sound: mom says "show me", nose taps, kids laughing, tags jingling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
