# My Daughter's Birthday Party

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

Our daughter has a small backyard birthday party: balloons on the fence, friends arriving, cake on the high table, opening gifts and a plain dog biscuit for her best guest.

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Balloons on the fence): Backyard, late morning, sunny with a few clouds, wooden fence and patchy grass. The dad, a man in his late 30s with a short dark beard, ties a bunch of plain pink and purple balloons high on a fence post. The dog stands below, staring up at the balloons bobbing in the breeze, head tilting. Sound: balloons squeaking, breeze, dad says "don't even think about it". 5-10s (Friends arrive): Side gate of the backyard, sunny late morning, natural daylight. The daughter, a girl with two braids in a party dress, opens the gate for two little friends holding wrapped gifts. The dog walks up wagging, sniffs the gifts, and the friends giggle and pat her back. Sound: gate latch clicking, kids giggling, girl says "she's friendly". 10-15s (Cake time): Back patio, midday, natural daylight, a tall folding table with a white tablecloth and a cake with lit candles on top, well out of reach. The daughter with two braids blows out the candles while friends clap. The dog sits on the grass below beside the mom's legs, watching calmly. Sound: kids singing happy birthday, blowing, clapping, cheering. 15-20s (Opening gifts): Picnic blanket on the grass, early afternoon, sunny daylight. The daughter, a 7-year-old girl with two braids, tears plain wrapping paper off a box. The dog lies beside her on the blanket and noses the crumpled paper, sniffing it, and a ribbon sticks to her ear for a moment. Sound: paper tearing, kids laughing, mom says "she wants to help". 20-25s (Biscuit for the guest): Backyard grass, mid afternoon, soft natural daylight, balloons on the fence behind. The daughter, a 7-year-old girl with two braids, crouches and holds out a plain dog biscuit. The dog sits, takes it gently and crunches it. The girl hugs her neck while the dog chews. Sound: loud crunching, the girl says "you get a treat too", kids playing.

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
