# Kids' Treasure Hunt for Her Toys

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

The kids hide the dog's toys all over the backyard and send her to find them: hiding, the search begins, rope toy behind the shed, squeaky toy under the slide, and the treasure pile.

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Hiding the toys): Backyard, overcast spring morning, damp grass, a small garden shed and a plastic play slide. The son, an 11-year-old boy with short curly hair, tucks a rope toy behind the shed. The daughter, a 7-year-old girl with two braids, slides a squeaky toy under the slide, giggling and looking back. Sound: birds, giggling, kids whispering "don't let her see". 5-10s (Search begins): Back door step, overcast spring morning, natural daylight. The mom, a woman in her mid 30s with shoulder-length brown hair, holds the dog's collar, then lets go and says find it. The dog bursts onto the lawn, nose down, zigzagging across the damp grass. Sound: mom says "find it!", fast paws on grass, kids cheering. 10-15s (Rope toy found): Side of a wooden garden shed, overcast daylight, tall weeds along the wall. The dog sniffs along the shed wall, stops, pushes her head behind the corner and comes out carrying a knotted rope toy, tail wagging. The son, a boy with short curly hair, claps. Sound: sniffing, rustling weeds, boy shouts "one!", tags jingling. 15-20s (Under the slide): Small plastic play slide in the corner of the yard, overcast spring light, wet grass. The dog lies down to stretch her nose under the bottom of the slide and pulls out a squeaky toy. She squeaks it twice. The daughter, a girl with two braids, jumps up and down. Sound: two loud squeaks, girl squealing "she found it!", birds. 20-25s (Treasure pile): Back porch, late morning, the clouds thinning, natural daylight. The dog lies on an old doormat surrounded by a pile of found toys: a rope, a squeaky toy, a ball and a chewed frisbee. The kids sit on the step beside her, counting the toys, and she chews the rope contentedly. Sound: kids counting "five, six", chewing, a happy dog groan.

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
