Sleepover Night With the Cousins

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The cousins sleep over and the dog joins the whole night: laying out sleeping bags, the blanket fort, popcorn on the couch, flashlight stories and lights out among the kids.

TIMELINE

0-5s	Sleeping bags
5-10s	Blanket fort
10-15s	Popcorn couch
15-20s	Flashlight stories
20-25s	Lights out

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Sleeping bags): Living room, evening, ordinary ceiling light on, coffee table pushed aside. The daughter, a 7-year-old girl with two braids, and a cousin, a 9-year-old girl with a ponytail, unroll sleeping bags on the carpet. The dog walks right across the bags, sniffing each one, and lies down on the middle bag. Sound: zippers, rustling nylon, girls laughing "that's mine!". 5-10s (Blanket fort): Same living room, evening, warm lamp light, a blanket draped over two chairs and the couch. The son, an 11-year-old boy with short curly hair, and a cousin, an 8-year-old boy in a striped shirt, crawl inside the fort. The dog pushes her head through the blanket opening and squeezes in after them. Sound: giggling, blanket rustling, son says "she wants in too". 10-15s (Popcorn couch): Living room couch, night, lamps on, TV screen facing away from the camera with flickering light. The son with short curly hair and the cousins hold a bowl of popcorn up on their laps. The dog sits on the floor in front of them, staring at the bowl without blinking. Sound: TV voices muffled, popcorn crunching, kids laughing at the stare. 15-20s (Flashlight stories): Inside the blanket fort, night, dark except for a small flashlight held by the girl cousin with a ponytail. The daughter with two braids sits beside her, both whispering. The dog's head pushes in between them, ears up, and the flashlight beam lands on her face as they giggle. Sound: whispering, giggles, a dog snort, flashlight clicking. 20-25s (Lights out): Living room late at night, main lights off, only a hallway light on in the background. Four kids lie asleep in sleeping bags on the carpet. The dog lies stretched out right in the middle of them, lifts her head to look at the camera, then lowers it onto a pillow corner. Sound: quiet breathing, a soft snore, mom whispers "night, guardian".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
