Nightlight Guardian

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Every night the dog sleeps beside our daughter's bed: tuck-in, settling on the rug, a hand reaching down, a midnight listen and a chin on the bed at dawn.

TIMELINE

0-5s	Tuck-in
5-10s	Settling down
10-15s	Hand reaching down
15-20s	Midnight listen
20-25s	Dawn chin

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Tuck-in): Kids' bedroom at night, a small bedside lamp switched on, warm ordinary indoor light, stuffed animals on a shelf. The mom, a woman in her mid 30s with shoulder-length brown hair, pulls the blanket up over the daughter, a 7-year-old girl with two braids. The dog stands at the bedside watching. Sound: blanket rustling, mom whispers "goodnight, sweetheart". 5-10s (Settling down): Same bedroom, the lamp now off, only a small plug-in nightlight by the wall giving dim orange light. The dog turns in two circles on the round rug beside the bed, lies down with a heavy flop and puts her head on her front paws, facing the door. Sound: paws on the rug, a heavy flop, a long dog sigh. 10-15s (Hand reaching down): Bedroom at night, dim orange light from the small nightlight. The daughter, a girl with two braids, lies in bed and lets one arm hang over the edge. Her hand finds the dog's head and strokes it slowly. The dog closes her eyes and stays still. Sound: quiet room, soft breathing, girl whispers "stay here". 15-20s (Midnight listen): Bedroom in the middle of the night, very dim orange nightlight, the door half open to a dark hallway. A small creak sounds from the hallway. The dog lifts her head, ears fully up, listening, looks toward the door for a few seconds, then lowers her head back down. Sound: a floor creak, silence, a soft huff, distant fridge hum. 20-25s (Dawn chin): Same bedroom, early morning, grey dawn light seeping around the curtains, nightlight still on. The dog stands and rests her chin on the edge of the mattress next to the sleeping daughter with two braids. The girl opens her eyes, smiles and wraps an arm around the dog's neck. Sound: birds starting outside, tail thumping on the bed frame, a sleepy giggle.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
