The Kids Brush Her Coat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The kids take over brushing duty on the front porch: the back, the chest, a fur cloud, gentle ear combing and a whole bag of fur at the end.

TIMELINE

0-5s	Brushing the back
5-10s	Chest brushing
10-15s	Fur cloud
15-20s	Ear combing
20-25s	Bag of fur

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle and pale cream-silver legs, chest and face (black and silver coloring), dark ears, gentle brown eyes, medium build, wearing a purple nylon collar with a small heart-shaped tag, natural slightly fluffy coat. 0-5s (Brushing the back): Front porch, late morning, bright overcast daylight, grey painted boards and a potted fern. The son, an 11-year-old boy with short curly hair, sits on the step and runs a slicker brush down the dog's back in long strokes. Tufts of pale silver undercoat come out with every pass. Sound: brush scratching, birds, boy says "look how much". 5-10s (Chest brushing): Same porch, overcast late morning. The daughter, a 7-year-old girl with two braids, kneels in front of the dog with a soft bristle brush and gently brushes her silver chest in tiny strokes, tongue sticking out in concentration. The dog sits patiently and leans into the brush. Sound: soft brushing, girl humming, a contented dog groan. 10-15s (Fur cloud): Front porch, a light breeze, overcast daylight. A puff of loose fur drifts off the brush and floats across the porch boards. The daughter with two braids chases it, grabbing at tufts and squashing them into a fluffy ball in her hands, holding it up to the camera. Sound: breeze, girl laughing "it's another dog!", brush scratching. 15-20s (Ear combing): Porch step, overcast daylight. The son, an 11-year-old boy with short curly hair, gently combs the soft fur behind the dog's ear with a small comb. The dog closes her eyes halfway and slowly leans her whole weight against his shoulder until he has to brace himself. Sound: comb strokes, boy laughs "you're squishing me", a happy sigh. 20-25s (Bag of fur): Front porch, midday, overcast daylight. The daughter with two braids holds open a paper grocery bag stuffed with fluffy pale fur. The dog stands, gives a big full-body shake that sends more loose hairs floating, and both kids groan and laugh. Sound: a loud shake, tags rattling, kids groaning "nooo", laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
